STAINLESS STEEL

STRUCTURAL

AXIS™

STAINLESS STEEL

Horizon Curve™

A slight curvature of the head for elegant, professional, architectural results. The Finish Ring underneath the head also provides a better finish by cutting the top fibers in the wood for an extra step in countersinking.

Turbine Ribs™

(patent pending) Turbine Ribs cut quickly into the wood, leaving a professional, clean finish with maximum wood contact. The cup shaped, countersinking head provides increased holding power and reduced risk of splitting.

Twin Blades™

(patent pending) This set of knurls cuts fast to dramatically reduce friction and heat on the shank, while reducing load on the drill. They also provide better performance by removing debris faster than a standard fastener's knurl.

Fast Start Tip

With sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces the splitting effect and minimizes the driving torque needed to engage the wood.

This advanced, General Purpose Structural Wood Screw is for typical very high-corrosive environments. Great for any size job or project such as decks, docks, boardwalks, fencing, railings, pools, hot tubs and more!

Available in 1lb, 5lb and 1/4 Keg
All Packaging Includes Drive Bit!

THE ULTIMATE FASTENERS

STAINLESS STEEL

STRUCTURAL

The AXIS™ Structural Wood Screw is the next step in fastener design. Every facet has been evaluated and improved (patents pending). Our extra sharp Fast Start Tip saves you time onsite and the Twin Blades outperform the competitor's knurls. The Turbine Ribs ensure an incredibly clean finish. Its cup shaped, countersinking head, provides unparalleled holding power and less risk of splitting the wood. The Horizon Curve Head has been architecturally engineered to leave an elegant finish.

Sizes Available: #8 x 1" to #10 x 4"

General Info	
Type of Screw	General Purpose Structural Wood
Material	Stainless Steel ¹ & 316 Stainless
Head Style	Countersinking TX20 Star Drive
Point Type	Modified Type 17
1. Our Gen II Products marked "Stainless Steel" are Austenitic Stainless Steel AISI 305 or better!	

TOUGH ENVIRONMENTS

Stainless Steel: Outdoor Coastal areas, surfaces with salt exposure, ground contact treated lumber, shipyards, medium polluted industrial areas, chemical plants, etc. Always follow timber manufacturer's recommendations for fasteners.

Common Applications

- Commercial & residential
- Decking and railing
- Fencing
- Siding & roofing
- Remodeling and repair
- Framing
- Trim & Cabinetry
- Windows and doors
- Chlorinated areas
- Hot tubs & Swimming pools
- And much more!

Construction		#8	#9	#10
Head diameter (inch)		0.323	0.350	0.386
Minor thread diameter		0.106	0.122	0.136
Major thread diameter		0.165	0.183	0.211
Shaft diameter		0.122	0.136	0.154
Drive Size		TX20	TX20	TX20
Product Range		Approx Count per 1lb		
Length	Thread	#8	#9	#10
1"	Full Thread	252		
1-1/4"	7/8"	211		
1-1/2"	1"	178	146	
2"	1-1/4"	138	113	
2-1/2"	1-1/2"		87	70
3"	1-1/2"		76	60
3-1/2"	2"			51
4"	2"			46
Also Available in 316 Stainless Steel
