RailLok® THE FENCE SECTION CONNECTION

RailLok is used to connect railing sections to the rail post. Attach the brackets to the rail post using included screws and then slip pre-assembled railing sections into the brackets and screw them in place.

Available in
316 Stainless
Steel and in
White or
Black powder
coat finish.

RailLok® Installation Instructions

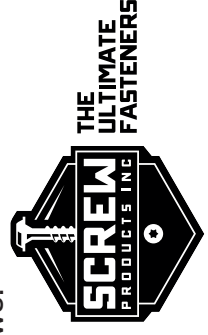

1. Install (4) brackets to posts using supplied screws.
2. Set fence section within brackets.
3. Secure fence section with screw through bottom of brackets.

RailLok® Rail section brackets provide a strong, reliable railing to post connection. The brackets are built to outlast the service life of the railing. RailLok is available in 316 Stainless Steel and in white or black powder coat finish and includes 5 Star Drive screws.
